Vijendra Pratap Singh

Computer Science Engineering Student

Vijendraprataps1390@email.com | +91-9931606482 | Greater Noida, India | LinkedIn | GitHub

SUMMARY

Computer Science Engineering student in an integrated B.Tech + M.Tech program with hands-on experience in full-stack web development, computer vision, and AI-powered applications. Skilled in Python, JavaScript, TypeScript, Flask, and MySQL. Built 7 projects spanning AI, health tech, fitness, and web development. Completed 13 industry certifications in DSA, OOP, Databases, Cybersecurity, Data Analytics, and more. Seeking Software Development internship opportunities to apply technical skills and continue growing as a developer.

WORK EXPERIENCE

Data Analysis Intern — TheAISCHOOL

- Completed practical training in data analysis using AI-assisted techniques and Power BI.
- Worked on data analysis projects involving data preparation, transformation, visualization, and insight generation.
- Developed data-driven reports and dashboards to present key metrics and trends.
- Applied analytical thinking to interpret data and communicate findings for decision-making.

Web Development Intern — Codsoft

Jun 2024 – Jul 2024

- Built 3 responsive websites using HTML, CSS, JavaScript, and Bootstrap as part of a structured internship program.
- Used CSS Flexbox and Grid for mobile-friendly layouts and deployed all projects live on Vercel.
- Practised clean code, semantic HTML, and cross-browser compatibility throughout the internship.

EDUCATION

Bachelor Master of Technology (Integrated) — Computer Science Engineering **Expected: September, 2029**

Noida Institute of Engineering and Technology (NIET), Greater Noida, India

- CGPA: 8.59 / 10
- Key Subjects: Data Structures & Algorithms, OOP, DBMS, Web Development, Operating Systems

Class XII (Senior Secondary) **Year: March, 2023**

Global International School (Bhikhanpura) Muzaffarpur, India

- Board: CBSE
- Percentage: 59%
- Subjects: Physics, Chemistry, Mathematics, Computer Science

Class X (Secondary) **Year: March, 2021**

City Montessori Public School ,Bagaha, India

- Board: CBSE
- Percentage: 71%

PROJECTS

SmartLens — AI-Powered Image Analysis Platform 2026

Python, Flask, YOLOv8, Tesseract OCR, OpenCV, JavaScript | github.com/Vijendra-Pratap/SmartLens

- Built a web app that combines object detection, text reading (OCR), and barcode/QR scanning in one place.
- Used YOLOv8 deep learning model to detect objects in images with labels and confidence scores.
- Added image preprocessing (brightness, noise removal) to improve text extraction accuracy.
- Deployed the full application on Vercel with a clean, mobile-friendly frontend.

Carelytics — Intelligent AI Health Assistant 2025

HTML, CSS, JavaScript, Flask, Python | github.com/Vijendra-Pratap/Carelytics

- Developed an AI-powered health assistant providing personalised health insights and symptom analysis.
- Integrated intelligent tracking features and built a clean, accessible frontend for seamless user experience.
- Designed backend logic in Flask to process user health data and generate AI-driven recommendations.

Criminal Face Detection System — Computer Vision Security Tool 2025

Python, OpenCV, Machine Learning, Face Recognition | github.com/Vijendra-Pratap/Criminal-Face-Dectection-System

- Built a face recognition system to detect and match faces against a criminal database using OpenCV.
- Implemented real-time face detection pipeline with ML-based classification for high matching accuracy.
- Designed for security and surveillance use cases with fast, reliable identification.

Attendance System — Automated Attendance Tracker 2025

TypeScript, JavaScript, HTML, CSS | github.com/Vijendra-Pratap/attendence

- Built an automated attendance management system to track and record student or employee attendance.
- Used TypeScript for type-safe, maintainable code with a user-friendly interface for marking and reporting.

Reboot Club — Community Platform 2025

TypeScript, JavaScript, HTML, CSS | github.com/Vijendra-Pratap/Reboot_club

- Developed a web platform for managing club activities, events, and member coordination.
- Implemented responsive UI with TypeScript-driven dynamic content rendering across devices.

FitPro — Fitness Management System 2025

HTML, CSS, JavaScript, PHP, MySQL | github.com/Vijendra-Pratap/Fitpro

- Developed a fitness platform for users, trainers, and admins with separate login and access levels.
- Designed a MySQL database to store user profiles, workout plans, and progress — with proper indexing.
- Built an admin dashboard showing live statistics and a trainer portal for managing client workout plans.

Codsoft Internship Projects 2024

HTML, CSS, JavaScript, Bootstrap | github.com/Vijendra-Pratap/CodSoft

- Created 3 web projects with responsive design and interactive JavaScript features, all deployed on Vercel.

KEY SKILLS

Languages: Python, JavaScript, TypeScript, Java, C, C++, PHP, HTML5, CSS3
Frameworks & Libraries: Flask, Bootstrap, React (basics), OpenCV, YOLOv8, Tesseract OCR
Databases: MySQL, MongoDB
Tools & Platforms: Git, GitHub, Vercel, Linux/Unix, REST APIs, GenAI Tools
Concepts: DSA, OOP, DBMS, Computer Vision, Cybersecurity, Data Analytics

CERTIFICATIONS

- GenAI Powered Data Analytics Job Simulation - Tata / Forage | Aug 2025
- Create a Project Management Tracker using Microsoft Excel - Coursera Project Network | Aug 2025
- Data Structures & Algorithms using Python (Parts 1 & 2) - Infosys Springboard | Aug 2025, Jan 2026
- Object Oriented Programming using Python - Infosys Springboard | Aug 2025
- Database Management System - Infosys Springboard | Jan 2026
- Unix & Linux OS Fundamentals - Infosys Springboard | Aug 2025
- Twitter Bootstrap - Infosys Springboard | Mar 2026
- Java for AP Computer Science A - Oracle Academy | Nov 2025
- Introduction to Cybersecurity - Cisco Networking Academy, NIET | Feb 2026
- Programming in C - Infosys Springboard | Apr 2025
- Introduction to MongoDB - MongoDB | Aug 2025
